JRR 1
1. Schedule of Meetings - Dr. Scoville announced that henceforth the Executive Committee meeting would be held every Friday at 1500. He desires that the DD/R Staff Meeting be held every Monday at 1400. This week's Executive Committee meeting will consider the subject of Personnel Management Policies. The item was suggested by Colonel White but no background papers have been provided. Dr. Scoville asked [REDACTED] to have prepared his S&T paper in time for that meeting. 25X1A9a

desires in this matter and Dr. Scoville agreed to talk with him at the first opportunity. (Note: Dr. Scoville interviewed [REDACTED] 25X1A9a on 19 June and reached the conclusion that [REDACTED] would proceed 25X1A9a to the Industrial College. This would be considered a leave of absence from his position as Comptroller, OSA; the question as to who~~x~~ would act in [REDACTED] absence was left open.) 25X1A9a

4. Personnel Matters - Dr. Scoville noted that at a meeting earlier in the day, Colonel White had invited us to submit a request for support slots and people to assist the Office of the DD/R, 25X1A9a [REDACTED] organization, and the ORD. With regard to additional slots for the area, Colonel White was enthusiastic about the idea of accepting the Air Force's offer to provide this strength. He suggested that we not volunteer to pay for these people but predicted that we would be asked to do so. [REDACTED] suggested that, if we under- 25X1A9a take to accept Air Force staffing, we so arrange the T/O that key positions are filled by formal detailees to CIA. (Note: Dr. Scoville said later he thought we should at least go through the motion of requesting Agency strength for these positions before seeking Air Force assistance.)

Dr. Scoville said the time has come to summarize in one place all current requirements for slots in all components of the DD/R. Once this master list is compiled, we can decide which parts of it to forward immediately and to whom. Colonel White had commented in the earlier meeting that such figures were being compiled by the Financial Policy and Budget Committee.

5. Future of the DD/R - After some discussion of the progress that has not been made in organizing the DD/R, Dr. Scoville said he wondered if the time had not come to make a cause celebre of this matter with the DCI. There was general agreement that the time is now and Dr. Scoville solicited suggestions as to the actual form this issue should take.

H5

6. [REDACTED] 25X1A9a - In response to a question from [REDACTED] 25X1A9a Dr. Scoville decided that [REDACTED] would replace [REDACTED] 25X1A9a as NSA Liaison Officer.

25X1A9a 7. Trip to SAC and the Area - [REDACTED] commented that 25X1A9a
[REDACTED] were planning a trip to SAC and the
25X1A9a SWB Area and inquired whether it would not be useful for him to accompany
them. Dr. Scoville agreed and asked [REDACTED] to arrange travel
to the Area.
25X1C4e 8. [REDACTED] inquired about the status of the latest 25X1A9a
25X1C4e [REDACTED] paper. [REDACTED] detailed the offices through which it 25X1A9a
SWB has passed, and Dr. Scoville commented we should prepare a short
summary of the pros and cons of this latest idea and bring it to the
point of decision.

SWB 9. Follow-up Items - [REDACTED] reviewed 25X1A9a
several items that apparently still had the status of pending. Specifi-
cally, it was agreed that reconnaissance satellite vulnerability is of
continuing interest; that drone reconnaissance depends on a recent
COMOR decision; that nominations to an Agency Scientific Advisory
Board are in abeyance; and that [REDACTED] would check into the 25X1A9a
matter of in-flight destruction equipment (DDR-230, dated 5 June).
